

Tandem flight, discovery day

Fly with a professional instructor (BEES 1st degree & DEJEPS or BPJEPS student teacher), specialist in tandem flights. Your **active participation**, with a short run, will be necessary for the take-off and landing.

These tandem flights are the perfect opportunity to learn the basics of piloting. Indeed, if you want, you will be able to pilot a little, by taking the brakes under the careful supervision of your teacher.

Takeoff	Vertical drop	Flying duration // Activity duration	Best time during summer	Price of the flight	Lift ticket (to pay at the lift company)	When to do it ?

Prices and opening time of the lifts given as an indication, they might change during the year.

Video option: have the full flight in HD on your SD card for 30 € more !

Kid's special price: - 10% on our mountain flights until they are 18 years old.

Level required

No experience is necessary, flying is possible for everyone from 6/7 years old (with parental authorisation for minors). Flying is a voluntary act of breaking with your everyday life, your motivation and your investment will be the guarantee of your progression and your pleasure in a sport considered as risky. Your active participation is necessary at take-off and landing with a volunteer and long run.

For people with special needs, we can organise a flight with the help of two teachers or special wheel chair at the take-off. When you are in the air, there will be no difference.

Dates & registration

All year round we flight every day. Booking is better at least one or two day before the flight, especially during high season. For high mountain flight, the sooner the better.

Payment at time of booking. All flights booked are supposed to be paid (we will refund the full amount in case of a cancellation due to bad weather).

The price includes

The teaching of a professional instructor BEES 1st degree & BPJEPS ou DEJEPS (“Brevet Professionnel ou Diplôme d'Etat de la Jeunesse, de l'Education Populaire et du Sport” // could be a student teacher) and mountain guide for high mountain flight.

Flying material (tandem glider, harness with rescue parachute and back protection, helmet),

Insurance RC of the teacher which covers you in aerial third party liability and individual accident.

You can pay with cash, cheque, [bank transfert](#), payment [on ligne with credit card](#) or “cheque vacances ANCV”.

The prices do not include

[Ticket for the cable car](#), the lift to Plaine Joux.

High mountain equipment for high mountain flights.

Personal Equipment

Warm / sport clothes (long pants, windstopper jacket...), hiking shoes in which you are comfortable to run a few meters, light gloves, sunglasses.

For high mountain flight, you will need more. Please ask us.

If you bring a camera or a video, you are responsible for it (our insurance doesn't cover in case of damage). You must be able to secure it.

The film of your flight in High Definition!

Our instructors all have a camera, you can have a video of your flight in High Definition. Ask for this option of your tandem flight when you book it.

Gift voucher! For a birthday or any other good occasion

Every flight (and courses too) can be purchased as a gift. You can also add the lift ticket and/or the video to the voucher. Nothing is easier: you just have to pay the amount of the gift you want to offer (added with the possible options you want to give). As soon as we will receive the payment, we will send the voucher (by email as a PDF file or by postal service). This voucher will be valid for a year.
